

DONNELLY'S SUPPORT TO DEALERSHIPS

Donnelly understands that your EV charging infrastructure must fit both the needs of your facility and your customers, as they begin to adopt electric vehicles as their new form of transportation and commuting. We have developed a holistic approach to every EV infrastructure project we face.

- Full turnkey support from identifying your energy supply status to installing the units and obtaining all rebates
- Helping to maximize incentive and rebate programs to cover costs
- Educating your facility managers so they can address questions about electric vehicle charging
- Supplying an educational support your facilities team

FREQUENTLY ASKED QUESTIONS FOR DEALERSHIPS

Q: Is the NJDEP Community Grant (Grant) only for dealerships?

Q: Can my dealership apply for the NJDEP Community Grant program and, at the same time, apply for other grant programs that may be available?

Q: Is 24/7 public access a requirement for EV chargers that are funded through the NJDEP Community Grant?

FREQUENTLY ASKED QUESTIONS FOR DEALERSHIPS

Q: Would EV chargers installed inside of a dealership building qualify for the NJDEP Community Grant?

Q: Will dealerships be able to charge the public to use their EV chargers, purchased through the DEP Grant?

Q: Are there sponsorship/marketing opportunities for a dealership to purchase and brand DC Fast Chargers outside of the dealership property but within the dealership's local community or elsewhere in the state?

FREQUENTLY ASKED QUESTIONS FOR DEALERSHIPS

Q: Do dealerships have to apply and be approved for the DEP Grant before starting construction?

Q: Will reimbursement amount be paid at the completion of the construction work?

Q: Should I find out now how much voltage/power my dealership can support to install an EV charger?

Q: Are New Jersey utilities funding any EV charger construction programs to help cover construction costs?
