

**FY24 Charge Up New Jersey Program
Dealership and Showroom Deferment of Reserved Funds**

In accordance with the Compliance Filing for the FY24 Charge Up New Jersey Program ("Program"), Dealerships or Showrooms that do not intend to reserve funding at the time of order must provide written notice to the customer noting that eligible vehicles will remain eligible for the incentive at the time of purchase or lease pending availability of funds. Dealerships or Showrooms may satisfy this requirement by providing this form to the customer for their review and signature at the time the customer orders their vehicle.

Customer Acknowledgement

By signing this agreement, I acknowledge that Program funds will not be reserved upon the order of my vehicle, and that my rebate under the Program will depend on the availability of Program funds at the time of purchase or lease pursuant to the Program's FY24 Terms and Conditions. I also acknowledge that Program funds may not be available at the time of purchase or lease, and that I ultimately may not receive the Program incentive if Program funds are not available at the time I purchase or lease my vehicle.

Sales Representative

By signing this agreement, I am deferring the reservation of funds for the ordered vehicle until the point of purchase or lease as defined in the Program's FY24 Terms and Conditions. I understand that choosing not to reserve funding at the time of order risks the ability to apply the Program incentive at the time of purchase or lease in the event of FY24 Program funding exhaustion.
